

# OIL PRESSURE GAUGE LINE KIT

**Redline**  
Performance

## PART NUMBER LK-1

### Universal oil pressure line connection kit

LK1 Features unique ferrule that prevents oil line from collapsing when nut and olive are tightened, ensuring leak-free operation. Enables removal and installation of line without damage or leakage.

### ITEMS SUPPLIED IN LK-1 KIT:

- 2m High pressure oil line
- 2 x Nuts
- 2 x Olives
- 2 x Ferrules
- 1 x Pressure Gauge Union
- 1 x Engine Block Union

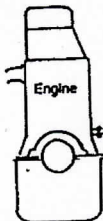

(Note, warning light adaptor must be ordered separately)

Oil pressure gauge.  
(See catalogue for range & part numbers)

### TYPICAL INSTALLATION

Union, ferrule, olive and nut connects pressure line direct to engine or adaptor as shown.

To gauge

2m Nylon high-pressure oil line supplied in LK1 kit. Cut to length

Original oil pressure warning light sender, screws into adaptor.

From engine

Six different Adaptors allow pressure line and original warning light to be connected to engine.  
(See catalogue for part numbers)
